

UCC Seventh Savings Plan For Eligible Y-12ers Opens July 1; Cards To Be Distributed Soon

Employees With More Than Year's Service Can Become Members

It has been announced by Union Carbide and Carbon Corporation, of which Carbide and Carbon Chemicals Company is a division, that the UCC Seventh Savings Plan for all employees with more than one year of Company service will be put into operation July 1, 1951. The present Sixth Savings Plan in which a large percentage of Y-12ers are participants, closes on June 30, 1951, when substantial checks will be distributed to Y-12 employees covering their own savings deposited in the plan plus the Company contributions and interest.

The Carbide Company Savings Plan is one of the several Company benefits offered Y-12ers and

other UCC employees throughout the United States and Canada. A large percentage of eligible employees have taken advantage of the savings plan operation to consistently save a good part of their earnings and also earn the additional deposits by the Company.

The details of the Seventh Savings Plan will be the same as those of the one now in operation. It will cover a period of two years unless terminated earlier by the UCC board of directors.

Application and payroll deduction authorization cards for participation in the Seventh Savings Plan will be distributed to all eligible Y-12 employees in the near future. As in the past, the application and payroll deduction cards will be handled through division and departmental channels. Details on the distributions will be announced in The Bulletin as soon as they are available.

Newcomers To Receive Notice When Period Of Eligibility Reached

To be eligible for enrollment in the Seventh Savings Plan an employee must have been on the payroll for more than one year prior to July 1, 1951.

Notified When Eligible

However, all employees with less than the required Company service at this time will be notified by the Payroll Department through Supervision when they become eligible for participation in the plan. Participation in the Seventh Savings Plan is entirely voluntary and application for enrollment may be made at any time after the minimum eligibility is attained.

An eligible employee may participate in the Seventh Savings

Y-12 Emergency Plan Requirements Completed And Forwarded To AEC; Alarm System Vital Link In Program

Short Wave Radio Planned For Communication In Case Of Disaster; Shelters And Control Center Listed; Committee Will Meet This Week

Although fervently hoping that its disaster emergency plans will never be required to be put into operation, members of the Y-12 Plant Protection Committee have completed estimates for contemplated requirements for such needs. These estimates and plans have been forwarded to the Atomic Energy Commission for consideration.

Although still in the planning stage, it is expected that the emergency plan program will be completed in Y-12 some time next year to provide adequate protection for all employees and plant property, as far as possible, from varied types of emergencies that would affect operations and personnel.

Gentry Underwood, superintendent of plant protection and chairman of the Plant Protection Committee, during a recent trip to Washington, D. C., conferred with the office of the disaster planning coordinator of the Atomic Energy Commission. At the meeting the AEC plans in general were discussed and it was pointed out that the AEC program for its various installations are to be made consistent with those of the Federal Civil Defense Administration. The FCDA program does not include AEC projects in its plans.

Alarm System Is Planned

The Y-12 disaster emergency plan calls for installation of an alarm system designed to work under the most exacting conditions, shelters for employees, a damage resistant control center and supplies of medicine, food, cots, blankets, portable lights, pumps, gas masks and other equipment deemed necessary to provide the necessary protection.

Plans for the alarm system, the vital link in the program, call for installation of short wave radio receiving sets in several strategic locations throughout the plant. These receivers would be equipped with amplifiers and loud speakers.

Alarms would be broadcast from four variable frequency sending sets that could be operated on either the same frequency as used

Attendance Improves Again In Y-12 Plant

Latest Absentee Mark Is Only 2.4 Per Cent

Another decrease in absenteeism in Y-12 was recorded for the week ending May 20, when only 2.4 per cent of plant personnel were away from their jobs. This is a decrease of .2 per cent from the preceding week.

In the Major League the Chemical Department advanced all the way from ninth place to first and reported only .4 per cent absenteeism. Research Service jumped from fifth to second place and had .8 per cent of its employees absent. Plant Engineering was third with an even one per cent of its personnel absent.

Five department reported "all present" records for the week ending May 20. However, there were only two repeaters from the preceding week. They were the Steam Plant and Fire Department. The other three were Receiving and Shipping, Research Engineering and Plant Records, advancing from fifth, seventh and ninth positions held during the week ending May 13.

Second place in the Minor League

THESE THREE OFFICERS OF THE SENIOR CLASS OF THE Oak Ridge High School all have parents working in the Y-12 area. Standing at left is Stanley Williams, president of the class and son of Eugene Williams, of Chemical. At right is Stanley Curtis, Jr., class vice president, whose father is in Receiving and Shipping. Seated is Carolyn Carey, secretary. Her mother is Mrs. Ludie Carey of the Biology Division of Oak Ridge National Laboratory, stationed in Y-12.

Sons And Daughters Of Y-12ers To Get Diplomas At High School Graduation

Many sons and daughters of Y-12ers are among the 197 members of the senior class of the Oak Ridge High School that will receive diplomas in exercises Friday night in the beautiful auditorium of the new high school building. The building is expected to be packed to its capacity of 1420 seats on the occasion.

Among the youngsters of employees in the Y-12 area who will receive their sheepskins Friday night from School Supt. Dr. Raymond Ostrander are the president, vice president and secretary. Class President Stanley Williams is the son of Eugene Williams, of Chemical; Stanley Curtis, Jr., is the class vice president and son of Stanley Curtis, Sr., of Receiving and Shipping. Miss Carolyn Carey is class secretary and is the daughter of Mrs. Ludie Carey, of the Biology Division of ORNL in Y-12.

The graduation exercises will be entirely in charge of the senior class, as is the distribution of tickets to the ceremony. School officials have requested that no person without a ticket try to attend the Friday night program.

Some Union Carbide Booklets Still Available For Y-12ers

There still is a small supply of the Union Carbide and Carbon Corporation booklet, "Products and Processes," available for Y-12ers who want them. They may be obtained at the office of The Bulletin, North Portal.

The 32-page booklet is profusely illustrated and tells in an interesting manner the activities of UCC and its various divisions and the products they handle.

This will be the last supply of these booklets available at this time.

Credit Union Gets New Record Machine

Work To Be Speeded; Loans Near \$200,000

With the Y-12 Employees Credit Union nearing the \$200,000 mark in shares purchased and in outstanding loans and business booming, the organization has just completed installation of new bookkeeping equipment that is expected to greatly speed up posting of records and facilitate giving of detailed information on every individual account.

President Don Phillips and Treasurer Carl A. Cooper announced last week that the new Burroughs bookkeeping machine, especially designed for credit union work, with the needed forms, has been installed and now is in operation. This equipment will greatly aid Mrs. Lorena Causey, office manager of the credit union, and her assistant, Mrs. Bettie Aiken, in transacting business of

Y-12 EMPLOYEES CREDIT UNION OFFICERS, STAFF AND visitor inspect the new Burroughs bookkeeping in the credit union office. From left, are Mrs. Bettie Aiken, Don Phillips, president of the credit union; Mrs. Lorena Causey, office manager; Arthur H. Purcell, of the Tennessee Credit Union League; and Carl Cooper, Y-12 credit union treasurer.

ORNL Scientist Will Speak At Physics Seminar Meeting

R. A. Erickson, of the Oak Ridge National Laboratory, will be the principal speaker at the weekly meeting of the Oak Ridge Physics Seminar to be held Friday, June 1. The meeting will be held at 4 p. m. in the East Lounge of the Ridge Recreation Hall.

The topic of the seminar discussion this week will be "Neutron Diffraction Studies of Antiferro Magnetism."

New Y-12ers Asked To Join Band Group; Y-12er Is Director

With a new Y-12er as director, the Oak Ridge Municipal Band is seeking new members in preparation for its program of summer concerts, according to Elmer Olson, also of Y-12, and manager of the musical organization. Olson's invitation is directed at the newer Y-12 employees, believing that among this group there are a number of musicians who would be valuable to the band. In return, band membership provides a lot of entertainment and relaxation to its members, Olson pointed out.

The band now is preparing for its next appearance in Flag Day ceremonies at 8 o'clock Thursday night, June 14, at Blankenship Field, the high school football arena. An appropriate program now is being arranged for the occasion.

The new director of the band is O. K. Sergeant, a machinist in the Y-12 Maintenance Shops Department. He has had considerable experience as a teacher and leader of high school bands in Huntsville and Berryville, Ark., and Poplar Bluff, Mo. He came to work in Y-12 last August.

Although the summer concert program for the band has not been completed, Olson announced it probably would provide for appearances twice monthly at Jackson Square.

FONNER - MARLAR

The marriage of Miss Zola Marl, of the Y-12 Product Processing Department, and E. J. Fonner, of K-25, was solemnized Tuesday night, May 29, at the home of Mrs. J. E. Smith, 538 West Outer Drive, Oak Ridge.

The Rev. Paul Arow officiated at the ceremony. James E. Smith, brother-in-law of the bride, gave her in marriage and the maid of honor was Mrs. Smith, the bride's sister.

The bride is the daughter of Mr. and Mrs. C. L. Marl, of Burnsville, Miss. The groom is the son of the late Mr. and Mrs. John W. Fonner.

Two Y-12 employees became fathers of baby boys born recently at the Oak Ridge Hospital. The fathers and date of births of their

Y-12 Emergency Plan Requirements Listed

Continued from Page 1

by the Guard Department or on another of its own. One of these sending sets tentatively would be located in Guard Department headquarters, one in the automobile of the chief of the Guard Department, another in the automobile of the plant shift supervisor on duty and one in the damage resistant control center.

Emergency Power Available

Electric power for operation of the alarm system would be tied into present existing emergency power units, of which there are several already located in Y-12. Of course, the normal power circuits would be utilized if they are not damaged by an emergency for which an alarm is sounded.

The tentative Y-12 plans as submitted to the AEC include shelters for 3,000 persons and a damage resistant control center. The latter would be an underground shelter in which to stock medical supplies, radiation kits, one of the radio alarm sending sets and other equipment needed to combat any emergency.

Tied With Mutual Aid

The supply of cots, medicines, food, gas masks, blankets and similar articles would be stocked on a three-plant basis under the mutual aid program of the three Carbide units in Oak Ridge whereby one plant could serve the needs of another if only one unit was damaged or needed assistance in an emergency.

Further details of the Y-12 emergency plan will be discussed some time this week when Chairman Underwood will call the Plant Protection Committee together to report on his Washington trip and other phases of the plant program.

The committee includes representatives from all sections of the plant. Members include Chairman Underwood, Lee Bagwell, Safety; Nelson Tibbatts, Maintenance; N. H. McKay and W. S. Herron, Chemical; Ward Foster, Electromagnetic Research; C. P. McWright, Biology; R. R. Tippy, Manufacturing Office; Lester Cook, ANP; E. G. Struxness, Health Physics and Hygiene; Lloyd Williams, Training and secretary of the committee; and all of the five plant shift supervisors. These supervisors are D. G. Hill, E. G. Richardson, H. N. Benninghoff, F. D. Bender and Leo F. Hemphill. The plant shift supervisor on duty is in complete charge of activities at the scene of any emergency.

sons were: Julius J. Holzknicht, Field Maintenance, May 18; and Dewey J. Nichols, Product Chemical, May 21.

Be careful. The life you save may be your own.

That long row of bleeding, broken and battered bodies extending outward from The Bulletin and Recreation Office last week were those of poor souls who stuck their heads in the door to comment—

"Real short summer we had, ain't it?"

There were rumors last week that several Y-12ers had brought home a lot of valuable loot from the recent spring fishing rodeo held by the Anderson County Sportsmen's Club at Pellissippi Dock on Norris Lake. However, a close check by our agents reveal that only one—John Carr, of Electrical Maintenance, finished in the money in fishing or drawings. He got second prize in bass fishing with a two and one-half pound large mouth. . . . While commenting on the fishing business—Sam King and Emmett Moore, of the Fire Department, had a field day over at Watts Bar Lake a few days ago. With King's two sons, the four of them decimated the crappie population in that vicinity by 62 on a most successful foray. . . . John L. Kennedy and his wife, Mozelle, former Y-12er, spent last week's vacation with their folks in Wichita Falls, Tex. . . . V. P. Hagood has returned from a week of vacation.

The Plant Records Department wishes a speedy recovery for Bobby Jean Jessee, who was rushed to Fort Sanders Hospital on May 19, with an acute attack of appendicitis.

Blanche Gibbs, of the Medical Department, is visiting her sister in Wilkesboro, N. C., while on vacation this week. . . . Frances Haase and her husband, Bill, of the Health Physics and Hygiene Department, are vacationing this week at Daytona Beach, Fla. The department extends a warm welcome to Dr. Earl R. Beets as a member of the staff.

The Plant Engineering Department welcomes two new employees, E. A. Crow and R. J. Brown, to the roster.

The Cafeteria Department extends sympathy to Wilhelmina McClatchey, whose mother died May 23. . . . The department also extends get-well wishes to Irene McCroskey.

J. H. Talley, of the Receiving and Shipping Department, is vacationing this week at his home in Russellville, Tenn. . . . H. F. Eubanks is spending most of his time fishing while on his two-week vacation.

J. C. Booher, of the Guard Department, visited relatives in Bristol, Tenn.-Va., while vacationing last week. . . . W. W. Rogers is on a two-week vacation. . . . and J. V. Ledbetter has returned from a week of vacation. . . . Get-well

wishes are extended to W. E. Bullock, who is in the Oak Ridge Hospital.

Mae Hale, of the Electromagnetic Research Division, and her husband are vacationing this week at Daytona Beach, Fla., and next week at home in Knoxville. . . . Margaret Jenkins, Joyce McGhee and Edna Bonifacius, of the Analytical Chemistry Division, are also among the vacationers at Daytona this week. . . . Audrey Braden spent a two-week vacation at that famous resort, Daytona.

W. L. McNabb, of the Stores Department, is visiting relatives in Newport, Tenn., and North Carolina while on vacation this week. . . . J. L. Hamon is visiting his sister and brother in Cincinnati and Dayton, Ohio. He also plans to see some big league baseball while on a two-week vacation. . . . J. D. Hayes, his wife and children, are visiting in Kentucky, while vacationing this week.

A. O. Phillips, of the Tool Department, was on the sick list last week and his co-workers hope he will be able to return soon. . . . T. D. Doyle attended the auto races in Indianapolis, Ind., on Memorial Day, and is spending the greater part of his two week vacation fishing at Norris Lake.

Charlie (Mailman) Hall, of the Manufacturing Offices, is on a week's vacation at home in Rockwood and at his favorite fishing haunts.

J. H. Seivers, of the Transportation Department, is off somewhere fishing while on vacation this week.

The Property Department welcomes D. M. Tompkins and J. K. Denton to the roster.

Drs. J. C. Briant and A. P. Fraas, of the ANP Division, attended the annual inspection of the NACA at Langley Field, Va., last week. . . . Kathleen Martin and Mary Lee are on the sick list, and the division wishes both a speedy recovery. . . . Louise Bond had her mother-in-law, Mrs. W. F. Bond, Sr., from Jackson, Miss., visiting last week. . . . The division had A. S. Thompson, of the North American Aviation, Inc., Downey, Cal., visiting here last week.

Bob Kelley, of the Material Chemistry Division, is still bragging about the first fish he ever caught, a four-pound bass, when he and Carl Roddy, of Plant Engineering, were over at Cherokee Lake fishing recently.

The Uranium Control and Computing Department welcomes Marie Monday, Frances Gwaltney and Verner Anderson to the roster. . . . Marjorie Wilkinson has returned from a two-week vacation at Daytona Beach, Fla. . . . Flora Coe-field spent a recent week of vacation at her home in Alabama. . . .

Savings Plan Opens For Y-12ers July 1

Continued from Page 1

Plan by authorizing payroll deductions up to a maximum of seven and one-half per cent of his rate of pay calculated at straight time for his normal or standard working hours. In no case, however, may participation amount to less than 50 cents per week or \$2 per month, or exceed \$7 per week or \$30 per month. Shift premiums may be included in calculating the maximum amount an employee may deposit in the Savings Plan.

Company Adds To Deposits

To these deposits by the employee the Company adds from 10 to 30 per cent, based on Company service. Y-12ers with one year and less than two years service will receive 10 per cent; those with two years and less than three years receive 20 per cent and those with three years and more get 30 per cent. The increased Company payments of 20 and 30 per cent will be applied automatically when the participant completes two or three years of Company service.

On termination of the Seventh Savings Plan on June 30, 1953, each employee will receive as a minimum the total amount he deposited in the plan, plus the Company deposits, plus interest on both amounts of two per cent per year, compounded annually.

Participants who withdraw from the Savings Plan, resign or are discharged for cause will receive the amounts they put into the plan, plus two per cent interest. This also applies to employees who are laid off, leave the Company because of total disability, retire under the Company Retirement Plan or die, with beneficiaries or themselves receiving the benefits.

The following Y-12 employees were patients in the Oak Ridge Hospital last week: Floyd L. Roberts, Curry B. Hillard and Winfred E. Bullock, Guard; Leonard R. Barker, Product Processing; Helen Kate Williams, Uranium Control and Computing; John B. Gray, Field Maintenance; Floyd M. Grizzell and Kathleen M. Martin, ANP; Frederick T. Howard, Electromagnetic Research; Mary F. Williams, Janitors; MaJa D. Butler, Wage Standards; James N. Harrell, Buildings and Grounds; Hoyt R. Atkins, Electrical Maintenance; and Fletcher L. Daley, Materials Chemistry.

Asa Tarwater visited her sister in Atlanta, Ga., over a recent week end. . . . The department wishes a speedy recovery for Katie Williams, who had a tonsil operation at the Oak Ridge Hospital, last week.

Congratulations are extended to George R. Jasny, of the Chemical Department, and Gloria Jane Jones of the Biology Division, whose engagement was announced recently. They plan an early summer wedding.

Congratulations to Jay Holzknicht, of Field Maintenance, and his wife on the birth of a son on May 18, at the Oak Ridge Hospital.

Belle Thompson, of the Assay Laboratory, and her husband spent the week end with her mother and son in Union Springs, Ala. . . . Frances Skeen was among the many Oak Ridgers who attended the folk dancing festival at Fontana, N. C., over the week end. . . . Nell Leonard vacationed at her home in Rogersville last week. . . . Katie Sells spent last week's vacation at her home in Livingston, Tenn. . . . Ozell Pass and Eula Hayes spent the week end in Nashville with Ozell's sister, a former Y-12er.

Desma Hutcheson, of the Per-

FISHING PROWESS AROUND
Y-12 is not limited to the men folks — as can be seen in this picture. Mrs. Hugh Finley, whose husband works in the Analytical Laboratory, right, and a little friend, Judy Moss, went to Watts Bar Lake recently and brought home this fine string of six bass and eight crappie. The biggest bass weighed five pounds and nine ounces.

Racquetees Romp To 6-1 Triumph Against K-25 Team

The Y-12 men's tennis team really turned on the heat last Thursday to hand the K-25 netters a 6 to 1 defeat on the Jefferson courts and are primed to take on the Atomic Energy Commission racquetees Thursday of this week, May 31.

The Y-12ers took all five singles matches, one by default, and split even in doubles. Nathan Smith, No. 1 Y-12 singles star, took Larry Thaler, one of Oak Ridge's best players, in a hard-fought scrap by 6-4, 5-7, 6-4. Al Hodges also was forced to three sets before downing B. Nemo by 6-3, 2-6, 6-3. Fred Hurst beat J. Michael in another close one by 7-5, 7-5 and E. Seng trimmed S. Levin by 6-2, 6-2. B. Capehart won by default.

Ross and Thomas took the Y-12 doubles decision from Collette and Jacobs by 7-5, 6-4 and the single Y-12 loss came when Harrison and Gabbard, of K-25, topped Moore and Murray by 1-6, 6-4, 7-5.

In a previously unfinished match with AEC, Fred Hurst turned in a 6-2, 3-6, 6-2 victory over B. Brothers. This gave the AEC netters a 4 to 3 match win.

Slow Pitch Team Of Y-12 Loses To Hospital In Debut

A last-minute Y-12 entry in the City Slow Pitch League made its debut last Wednesday night at Midtown Field and took a 17 to 9 drubbing at the hands of the Hospital team. Anderson pitched and Orange caught for the Y-12ers. The Y-12 team is managed by Tom Niemeyer.

The slow pitch loop plays every Wednesday night at Midtown and the league is composed of eight teams. In addition to Y-12 and the Hospital other teams are the Jewish Congregation, Oak Ridge Institute of Nuclear Studies, K-25, Atomic Energy Commission, Roane-Anderson and the Recreation Department. Games are scheduled for 6, 7, 8 and 9 o'clock.

The next game for the Y-12ers will be at 6 o'clock, Wednesday night, June 6.

Divots Hold Lead In Golf League

Shooting a 15 to 21 win over the Deacons, the Divots held their undefeated position at the top of the Y-12 Golf League last week. Other results were Turf Riders 16, Four Hundreds 20; Hooks 14, Left Overs 22; Green Rays 10, Four Woods 26; and Rough Riders 15, Rippers 21.

Trailing the Divots in order are the Rough Riders, Turf Riders, Rippers, Green Rays, Hooks, Four Hundreds, Left Overs, Four Woods and Deacons.

Y-12 Softies Sweep Slate; Cards Beat K-25, Drop Two

Bonnie Roberts Blasts Five Homers In Three Games; Robins, Redbirds Take Double Header Win Friday

SCHEDULE

Baseball

Saturday, June 2, 8 p. m., Farragut at Oak Ridge. City League.
Sunday, June 3, 3 p. m., Rockford, there. Knox-Ridge League.
Tuesday, June 5, 8 p. m., Fulton at Knoxville. City League.
Saturday, June 9, 4 p. m., Mascot, there. City League.

Men's Softball

Friday, June 1, Maryville at Oak Ridge.
Monday, June 4, Ga.-Tenn. Produce at Oak Ridge.
Friday, June 8, K-25 at Oak Ridge.

Women's Softball

Friday, June 1, K-25 at Oak Ridge.
Tuesday, June 5, Vestal at Knoxville.
Friday, June 8, Gravenston at Oak Ridge.

RESULTS

Baseball

Farragut 10, Y-12 5.
Y-12 9, K-25 5.
Fulton 12, Y-12 9.

Men's Softball

Y-12 7, Watson Furniture Co. 1.
Y-12 8, U. S. Army 3.

Women's Softball

Y-12 12, Gravenston 7.
Y-12 8, K-25 6.
Y-12 14, Keck-Davis 4.

The Y-12 softball teams had perfect marks last week in KSA league activities but the Cardinals had to settle for one win and two losses. Meanwhile, the softies have a favorable home schedule for the next few days while the Cards do most of their playing on the road.

Bonnie Roberts Hits Homers

Hitting off Bonnie Roberts, catcher for the Robins, marked the victory march of the girls. She blasted five homers in three games, two coming in a win over Keck-Davis Friday night when the Y-12ers won by 14 to 4. The Redbirds took an 8 to 3 victory over the U. S. Army for a double header triumph. Sise hurled the win.

Helen Brown got four for the Robins and Ruby McGinnis three for four.

The Cards dropped a slugfest to Fulton in a City League game by the score of 12 to 9 Saturday.

Farragut came up with some big middle innings to trim the Cards by 10 to 5, rapping Schultz for 16 bingles while the Y-12ers got but six off Tucker, who whiffed 10. Martin was the only Card who successfully solved Tucker, getting away with three safeties.

Big Inning For Cards

However, the Cards had a big inning of their own against the K-25 Hubs last Thursday night in a game advanced from Sunday to allow K-25 to play another contest. The Hubs got away to a one-run lead when the Cards came in for their half of the fifth and before the dust had settled in that round eight Y-12 runs had crossed the plate. Lefty Carter coasted from there on in for a 9 to 5 triumph. A dozen Cards went to bat in that hectic fifth inning and three K-25 hurlers were used before the fire was extinguished. Manager Bill Burns' boys banged out 16 bingles. Sherrod got three and Martin, Wylie W. Simmons and Wiegelt a pair each.

The Y-12 Redbirds, the men's varsity softball team, bunched hits in the fifth and seventh innings to hand the Watson Furniture Co. team of Knoxville a 7 to 1 defeat for the first Redbird win of the season. Bobby Loy held the Knoxville to five hits and got a pair for himself. Vaughn also got two hits.

Robins' Wins Convincing

After taking a bad trimming in their opener the Robins of Y-12 rallied for a pair of convincing victories. The first came over the Gravenston lassies in Knoxville when the Robins pounded out a 12 to 7 win with Helen Aikman turning in a good pitching job and

getting a pair of socks of her own. Bonnie Roberts slammed out a homer for one of her two hits and Juanita Reed, Ruby McGinnis and Beverly Greer also hit safely twice.

Bonnie Roberts had a field day against the K-25 Bluebellies by whacking for four, including two home runs, as the Robins started out fast with five runs in the first inning and were never headed to win by 8 to 6. Helen Aikman and Beverly Greer shared the mound duties and allowed the K-25 girls but three hits.

Three Teams Tied For Top Spot In Close Softball League Race

More Huge Scores Posted In Second Week Of Play As Teams Well Matched; Fog Halts One Contest

Plant Softball League athletes have just about worn out home plate at Elza Field, with the second week of play again seeing gigantic scores tallied. All the victors came through with double-digit figures and everybody had lots of fun, even the losers, so it was all well worth while.

Added to the long list of "anything can happen and generally does" in the loop was the calling of one game—because of fog. The lads kept bravely at their tasks until the mist became so heavy it was feared someone might get conked with a fly ball without previous notice. The contestants were the Isotopes and Bldg. 9211.

At the end of the second week of play the competition remained close, showing that most of the teams were well matched. Three teams were tied for first place and then came five outfits with two and two records. No team is undefeated and only one, Bldg. 9211, has failed to win at least once.

The schedule for the week beginning Thursday night, May 31, follows:

Thursday, May 31 — 6 p. m., Rusty 9 vs. Bldg. 9737. 7:30 p. m., All Stars vs. Bldg. 9211. 9 p. m., 49ers vs. Grocers.

Monday, June 4—6 p. m., Orphans vs. 49ers. 7:30 p. m., Bldg. 9737 vs. Grocers. 9 p. m., All Stars vs. Rusty 9.

Tuesday, June 5—6 p. m., Bldg. 9709 vs. Bldg. 9211. 7:30 p. m., Bldg. 9212 vs. Isotopes.

Wednesday, June 6 — 6 p. m., Bldg. 9211 vs. Grocers. 7:30 p. m., Rusty 9 vs. Bldg. 9212. 9 p. m., 49ers vs. Bldg. 9737.

Thursday, June 7—6 p. m., Isotopes vs. All Stars. 7:30 p. m., Orphans vs. Bldg. 9709.

Results of games played last week and standing of the clubs follow:

Team	R	H
All Stars	321	720
9737	663	111
All Stars: Marrow, Twitchell and White.		
9737: Baker, Sutton, Darby and Brown.		

Team	R	H
9709	303	001
49ers	314	83x
9709: Law and Rhea. 49ers: Bishop, Stanton and Jones.		

Team	R	H
Isotopes	(10)40	70—21
9211	(1)11	20—5
Isotopes: Killian and Prater. 9211: Shugart and Haggard.

Many Deaths By Drowning Termed "Needless" If Precautions Taken; Red Cross Water Safety Courses Train Swimmers Of All Classes

With the summer swimming and boating season getting into full swing, Red Cross and other water safety authorities throughout the state have pointed to a recent upsurge in deaths by drowning—termed "needless" and which could have been avoided in practically every case by observance of ordinary precautions.

In Oak Ridge the local chapter of the American Red Cross will launch its summer program of water safety classes with instruction being given free in groups ranging from beginners to advanced swimmers and also in junior and senior life saving. The classes begin June 4 at the Oak Ridge pool under auspices of the Oak Ridge Chapter of the American Red Cross and the city department of recreation.

All Y-12ers with plans for boating, fishing or swimming during the coming months are invited to join these classes to receive the instruction that might enable them to either save their own lives or those of other unfortunate persons involved in water accidents.

Some of the more obvious rules for water safety for swimmers and boaters are:

Don't swim in areas not properly supervised.

A wooden boat will float, even if full of water, so stay with the craft if it capsizes.

Only one person should occupy each seat in a boat, regardless of width, and positions should not be changed while the boat is away from the shore.

Tennessee Valley Authority officials recently issued a report showing that accidental drownings in its many lakes that serve as a boating and fishing paradise for thousands dropped off 25 per cent in 1950 from the 1949 record. In 1950 only 52 persons lost their lives from drowning in the TVA lakes as compared to 69 the preceding year.

Most Fatalities Involved Boats

Of the 1950 TVA lake fatalities 35 involved boats. In 31 of the boats no life preservers were available. Drinking and other unsafe conduct figured in 19 deaths. Overloaded or overpowered boats were factors in 18 accidents. Several drownings resulted from mishaps in turbulent waters below power dams, from which fishermen have been continually warned to avoid. Inexperienced and unsafe operation of boats also came into the picture.

The swimming and water safety classes conducted by the Red Cross in Oak Ridge last for about two weeks and include all age classes. Persons desiring information may obtain it by communicating with the Red Cross, Oak Ridge Turnpike, telephone 5-5641.

Attendance Improves Again In Y-12 Plant

Continued from Page 1

for the latest reporting period was Uranium Control and Computing, with an absentee record of .5 per cent, and which rose from 13th position held the preceding week. Superintendents were in third place with an absentee mark of .7 per cent.

The plant-wide absentee record for the week ending May 20, by departments, follows:

MAJOR LEAGUE			
Dept.	More Than 50 Employees	Percentage Absent	Standing
2619	0.4	1	9
2018	0.8	2	5
2060	1.0	3	-
2077	1.1	4	3
2003	1.48	5	7
2001	1.48	5	12
2015	1.7	6	8
2283	1.9	7	2
2142	2.0	8	1
2091	2.6	9	4
2282	2.8	10	10
2616	3.0	11	11
2014	5.4	12	6

Group absentee percentage was 2.4 per cent, .2 per cent lower than the preceding week.

MINOR LEAGUE			
Dept.	15-49 Employees	Percentage Absent	Standing
2743	0.0	1	1
2093	0.0	1	1
2143	0.0	1	5
2064	0.0	1	7
2046	0.0	1	9
2739	0.5	2	13
2200	0.7	3	1
2109	0.9	4	10
2005	1.2	5	1
2002	2.0	6	4
2107	2.2	7	3
2133	3.4	8	11
2144	4.2	9	1
2008	4.5	10	6
2096	5.0	11	8
2145	5.17	12	2
2108	5.18	13	12
2090	5.5	14	14

Group absentee percentage was 2.4 per cent, .8 per cent lower than the preceding week.

The plant average for the week ending May 20, 1951 was 2.4 per cent, .2 per cent lower than the preceding week.

Curtain Time Program Offers Blossom Time Sunday Night

The melodic operetta Blossom Time will be featured in the Curtain Time radio program to be presented under the sponsorship of Carbide and Carbon Chemicals Company over Oak Ridge Station WATO on Sunday night, June 5. The program will be heard from 8.30 p. m. to 9 p. m.

Among the featured numbers will be "Song of Love" and "Only One Love Ever Fills The Heart."

Y-12ers May Vote In K-25 Contest By Purchasing Ticket

Y-12ers who wish to cast votes in the K-25 Girls Club popularity and beauty contest can have the opportunity for the price of one ticket to the dance sponsored by that club Saturday, June 2. The dance, to be held at the Oak Terrace, will be to the music of Clarence Neal and his orchestra.

Tickets may be purchased from Juanita Reed, at the Y-12 Badge and Pass Office, telephone 7283.

Summer Bowling Loop Opens Play At Central On June 6

Play will open next Wednesday night, June 6, in the Summer Bowling League composed of three

Continued from Page 2

sonnel Department, with Ruth Law, of Product Chemical, and Christine Sparkman, of the Superintendents Department, flew down to Birmingham, Ala., to meet a girl friend there, and are driving on to Panama City, Fla., for a week of vacation.

W. R. Duff, of Research Service, is on a two-week vacation. He planned to spend most of his time fishing on Norris Lake.

Elmer Clark, of the Steam Plant, and his family planned to go to Texas during his two-week vacation. W. M. Simpson is on a two-week vacation.

Bill Miller, of the Analytical Chemistry Division, is vacationing in Kansas, this week. Bill Ross had his parents as guests over a recent week-end. The division welcomes Charles L. Stringfield and P. K. Williams to the roster.

Emma Russell, of Planning Estimating, is vacationing this week at home in Sparta, Tenn., and next week at Daytona, Fla. The department extends get-well wishes to H. D. Duncan, who is in the Baptist Hospital in Knoxville. A hearty welcome is extended to C. H. Cottrell, who was added to the roster last week.

I. J. Shotts, of Manufacturing Offices, spent last week's vacation at his home in Alabama.

K. W. Mercner, of the Janitors Department, is vacationing in Philadelphia, Pa., this week. He is visiting his 80-year-old mother there before she leaves to tour Switzerland and France in the near future.

R. L. Jamison, of the Analytical Laboratory, spent his long week-end in Chicago, Ill. Edward Creech spent last week's vacation in Kentucky. Ann Wenzler spent the week end in Memphis, Tenn.

Mildred Langley, of the Personnel Department, is vacationing at Daytona Beach, Fla., this week.

F. Queener, of Buildings and Grounds, is spending most of his time over at Watts Bar Lake fishing while on vacation this week.

C. W. Wilkerson is off on vacation this week. H. D. Castleberry is off on a two-week vacation. W. B. Eisenhower is taking advantage of his vacation this week to move into his new home in Kingston, Tenn.

Helen Baker, of Planning and Estimating, and Louise Argo, a K-25er, found out—the hard way—that it is easier to row a boat with the anchor hoisted. They rowed for an hour out on Ft. Loudoun Lake, where they had gone to fish on a recent Saturday before they discovered the anchor was dragging.

Speaking of dragging anchors—wonder if the handlers of that famous frog, Leaptron, made a mistake and instead of feeding or injecting Iodine 132 they used Vat 69.

Teams from Y-12 and five from K-25. The keggers will roll at the Central Alleys every Wednesday night.

Teams from Y-12 are Bldg. 9212 with Bill Burns as captain, the Activators led by J. P. Ross and the All Stars with Morris Bailes as captain.

Credit Union Gets New Record Machine

Continued from Page 1

the organization.

Approximately 60 days will be required for the clerical staff to make the complete transition of records from the old system to the new, the credit union officials declare, but at the end of that time it will be possible for any member of the credit union to obtain a complete statement of his account in a moment's time.

When the new system is completely installed it will be possible for the credit union office, second floor, Bldg. 9704-2, to remain open during the entire working day from 8 a. m. to 4:30 p. m. instead of the hour and one-half it now is open for transaction of business with members. The rest of the time now is spent in posting records.

Purcell Congratulates Group

The Y-12 Employees Credit Union last week received a visit from Arthur H. Purcell, of Chattanooga, managing director of the Tennessee Credit Union League. He is on a tour of league member credit unions throughout the state to hear and advise on their problems. He visited several other Oak Ridge credit unions during his stay here last week. He was highly complimentary of the operation of the Y-12 group.

Purcell said that there are approximately 50 credit unions in the state of Tennessee and that the state league was reorganizing because the growth of credit unions in Tennessee has reached such proportions that new procedures were needed to reach and serve the member organizations.

1239 In Y-12 Group

According to Y-12 Employees Credit Union records at the end of April there was \$191,061.52 in outstanding loans and a constantly increasing capital of \$195,399.03. At that time there were 1239 participating members, including investment share holders and borrowers with shares.

Inter-Company Match Unsettled

Because of incomplete scores, the inter-company golf match staged Sunday was not finally determined. A meeting was set for Tuesday night of this week when final returns will be checked.

The Y-12 golf team will meet K-25 next Sunday, June 3, in a Smoky Mountain League contest.

Fan Dancer: "Doctor, I want you to vaccinate me where it won't show."

Doc: "Okay, stick out your tongue."

SERVICEMEN'S ADDRESSES SOUGHT BY THE BULLETIN

The Y-12 Bulletin would like to send the paper to all former employees in the armed forces and those who enter the service at any later date. In order that this can be made possible we request that servicemen or members of their families send their service address, including serial number, to The Bulletin Office, North Portal, telephone 7753. This information will enable us to send them the paper each week.

Rides Wanted And Offered

RIDERS WANTED—From Fountain City, straight day shift. Charles Stringfield, telephone 7947.

RIDERS WANTED — To Cambridge, Mass., vicinity or points on way, share expenses and driving. Leave August 17, return to Oak Ridge September 4. Juanita Reed, telephone 7283.

RIDE WANTED—From Maryville by shift worker. Sara McCollum, Plant telephone 7341, home telephone Maryville 1946-W.

Commissioner Glennan Will Address ASME

Commissioner Keith Glennan of the Atomic Energy Commission will be the honored guest and principal speaker at the annual spring meeting of the East Tennessee Section of the American Society of Mechanical Engineers, to be held in Oak Ridge on Friday night, June 1. Commissioner Glennan is a former president of Case Institute of Technology, Cleveland, Ohio. In his talk he will discuss some aspects of atomic energy related to mechanical engineering.

The all-day program will feature a non-classified tour of the Oak Ridge controlled area and the Oak Ridge National Laboratory, a reception and dinner, to be held at the Oak Ridge Golf and Country Club. The reception will be given by Carbide and Carbon Chemicals Company in honor of Commissioner Glennan and the visiting members of the ASME.

Y-12ers intending to attend the dinner or who want further information on the meeting are asked to communicate with Nelson Van Wie or M. J. Lundin at K-25, telephone 8373.

Y-12 Women Netters Defeat Lab Lassies In Opening Match

The Y-12 women's tennis team opened the season Monday, May 21, by beating the Oak Ridge National Lab lassies by 5 to 1. Taking three of the four singles matches and the two doubles events the Y-12ers took their first step toward a successful defense of their city title.

In the only loss Mozelle Rankin was taken by Lane of ORNL 7-9, 6-3, 6-1. Elizabeth Patrick defeated Comar 6-2, 6-2; Mary Freestone defeated Silverman 6-2, 5-7, 6-4; and Lovelle Thompson defeated Sacks 6-4, 6-3.

In the doubles matches May Hale and Betty Lambert teamed to take a 6-2, 6-2 victory. In the final match Desma Hutcheson and Phyllis Finneran gained a win by forfeit.

The next match for the racquet-tees is against the K-25 team at the Jefferson courts Monday, June 4. Intra-team matches will be played up till that date with the results determining position on the ladder and also the personnel of the team that will play the next match.

Y-12 Dodgers Wallop K-25 Team In Opener By 6 To 2

The Y-12 Dodgers, baseball team composed of Negro employees of the plant, opened their season last week with a victory over a K-25 team by the score of 6 to 2. Detheridge pitched for the Dodgers with Manager Leon Coleman catching. Wood and Williams formed the K-25 battery.

The Dodgers were scheduled to play Oak Ridge National Laboratory Wednesday night of this week. Manager Coleman reports efforts are being made to form a league of Negro teams in Oak Ridge to play during the summer.
